Description

For your consideration and for those seeking the more unique pieces this table might be of interest. Quite substantial in size is this multi tiered circular table. The under tiers stack and fold in nicely, but these can also swing out offering more space and offering a more overall unique look. The under tier circular shelves are 50 cm diameter so slightly smaller in size than the base and top. They operate on two walnut tubular posts and can be moved with ease. Dating to the 1930's and English in origin we've had this table fully and professionally restored and so comes to you in great condition.
