

SA1038014

Antique Swiss silver pocket watch

Price

Sold**Item Reference: SA1038014****Date of manufacture: 1910**

Description

Antique Swiss silver pocket watch. The watch has a nice quality stem-winding pin set movement which is working well. The movement is protected by an inner hinged cover. The watch itself measures 51mm diameter excluding the winding crown and the stem. The case is silver and there are Swiss .935 silver marks inside the two case backs. The case has light surface marking and a mild unevenness to the back but overall it is in nice condition for a 1910s piece. The watch glass is in nice condition with only minor marking. The white enamel dial has a very faint hairline crack to the bottom of the sub seconds dial, and light surface marking although not noticeable to the naked eye. Original blued steel hands which are initially set via the pin set mechanism. The watch will come in a new presentation box.
