## Description

A lovely bank of pine drawers dating from the late 19th/ early 20th Century. There are 10 drawers in total with a large drawer at the top. Each drawer has an ornate cast handle with lions head centre. It was probably originally used in a shop or workshop and has been cleaned, stripped and given a light coat of wax. It is in good condition for its age and displays well. The inside of the drawers are generally clean and tidy and they open and close smoothly. There have been some old repairs and there are signs of age and use, some surface marks, knocks and minor chips but nothing untoward. It has suffered from worm at some point and there are various old holes and marks but it is all historic and we have treated it as a precaution. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
