STRIKING LARGE SCALE MID CENTURY BOTANICAL MODEL

Price

Sold

Item Reference: SA1038832

Date of manufacture: 1930

Dimensions

Height = 94 cm (37.0")

Width = 89 cm (35.0")

Description

A large wooden hand carved and hand painted teaching aid botanical model of *Ravenala Madagascariensis*, commonly known as the traveller's palm, although it belongs to the banana plant family. Circa 1930, each leaf stalk has a small numbered paper label, and is detachable, except for the top one which has been glued, perhaps missing its peg... Hugely decorative and probably quite a rare example, standing just under a meter high.
