

SA1039350

Antique Swiss pocket watch and chain

Price

Sold**Item Reference: SA1039350****Date of manufacture: 1920**

Description

Antique Swiss pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has some scratches where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold filled and is in good condition, just general light surface marking but nothing too serious at all. The glass lens is in good condition, just two nibbles to the edge. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single chain, 29cm long including the T-bar and the clasp. The chain could possibly be later in date than the watch. The watch and chain come in a new presentation box.
