Description

A large folk art style carved and painted decoy goose. The goose is carved from softwood and is in a sleeping pose, with its head resting on its wing. A lovely decorative item. This charming goose is quite naive in style. We believe it dates from the early 20th century. Condition: There are a few splits in the timber, mainly towards the tail area where there appears to be a knot, and some losses/wear to the paint, but nothing that detracts from its overall appearance. Free UK delivery - the item will be sent using a tracked and signed for service. If you would like a quote for delivery elsewhere please get in touch.
