Description

Late 19th century adjustable beech and iron industrial stool. Nice design with heavy iron "Dolphin head" shaped feet. The stool is adjustable in height. It is a bit better than the average industrial stools I have seen. Nice colour. There is some wear to the iron threads so the top does wobble slightly. SIZE; 15" diameter by 20" to 24" high CIRCA; 1890 - 1910
