Gents 1950s Titus Titomatic wrist watch

Price

Sold**Item Reference: SA1042274****Date of manufacture: 1950**

Description

Gents 1950s Titus Titomatic wrist watch. The watch has a signed Swiss 17-jewel automatic movement which is working nicely. This is the calibre AS 1258 for Titus, in production from 1953 until 1955. The watch measures 35mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition. The signed case back has some light scratches, not too detrimental. It also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial has some marking around some of the edge, and the odd small mark, but overall it looks good with original hands, centre seconds hand and date display (not quickset). A new leather strap has been fitted. The watch comes in a new presentation box.
