

SA1042834

1920s Cyma pocket watch

Price

Sold**Item Reference: SA1042834****Date of manufacture: 1920**

Description

1920s Cyma pocket watch. The watch has a stem-winding movement, reference 919, which is working nicely. This is a good quality movement with 16 jewels (four adjustments), Breguet hairspring for enhanced precision and a perlée pattern to the plates. The movement is protected by an inner hinged cover which has a little scratching from where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and has engine turned detail to the back, along with a central vacant cartouche. There is some marking to the back of the watch. The glass lens is in good condition. The dial is in lovely condition and it has its original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
