Description

Antique silver pocket watch and chain. The watch has a Swiss 17-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1924 with a case maker's mark for Aaron Dennison, the Birmingham based watch case maker. The case is in very nice condition, just a small patch of gentle unevenness to the back, nothing serious at all. The glass lens is in lovely condition, as is the dial with blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a double albert, with each chain measuring 23cm long including the T-bar and the clasp. Hallmarked for 1908. Each of the links has the lion silver mark. There is also a 1920s silver football league medal. The watch and chain come in a new presentation box.
