Date of manufacture: 1960

Dimensions

Height = 10 cm (3.9")

Width = 10 cm (3.9")

Depth = 10 cm (3.9")

Description

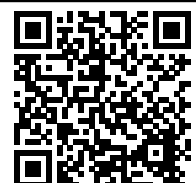

This is a remarkable near mint unrestored example the very rare oversize Longines calibre 370 from around 1966. The only work we have carried out is to service the movement and give the case a light polish with a soft cloth. The solid 18ct rose gold case is oversize at 36mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was rarely worn. The movement is Longines manual winding calibre 370 this was one of Longines highest grade movements of this period. It has been freshly serviced and is currently running at plus 3 seconds per day, not bad for a 60 year old watch. The two tone dial is totally original and near perfect it has had no restoration whatsoever. It has a very very fine and even surface patina just as you would expect from a dial of this age. The hands are matching rose gold. It's the most original and perfect unrestored example you will ever see. As you would expect the watch is fully marked on the dial, movement and case. A very rare quality collectors piece.

Internal Ref: longines
