Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. The watch is the Seamaster calibre 501 with fully automatic movement. It has a two tone dial explorer dial which really stands out, the dial is completely original and unrestored it has a very fine even patina just as you would expect from a watch of this age. The watch has the rare Denisteel case which is more durable and heavier than the standard case. A new toughened armoured glass has been fitted and the case has been ultrasonically cleaned so it is in superb condition. As you would expect the watch is fully marked on the dial, movement and case. It comes with four military style straps so that you can change the look as you prefer. If you would prefer a more conventional leather strap or mesh bracelet please let us know we keep most things in stock. Omega are one of the most exclusive watchmakers in the world and this watch certainly has that understated elegance that whispers class. The watch case measures 34mm in diameter not including the crown. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects. It has bee...
