Description

1930s Moeris full hunter pocket watch. The watch has a 17-jewel stem-winding movement which is working nicely. The movement is signed with the Moeris name, and it is all protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Birmingham based case maker, the Dennison Watch Case Company, a prolific manufacturer and supplier to various watch makers. The case is in good condition, just light marking which is mainly to the back of the watch. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition. The dial is in lovely condition, just some discolouration to the subsidiary seconds dial. The watch comes in a new presentation box.
