Gents 1950s Cyma Watersport wrist watch

Price

Sold**Item Reference: SA1046782****Date of manufacture: 1950**

Description

Gents 1950s Cyma Watersport wrist watch. The watch has a signed 17-jewel hand-winding movement, Cyma calibre R458, which is working nicely. There are a couple of empty retaining screw holes within the movement, the retaining screws are not required in this particular case as the movement is designed to be held in place by the shaped case back. The watch measures 32mm diameter excluding the winding crown and the nicely shaped lugs. The case is chromium plated while the case back is stainless steel. There is some rubbing to the high points of the lugs but not too detrimental. Light surface marking but all very acceptable for a 1950s piece. Despite the name Watersport, the watch should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in lovely condition with original hands, a subsidiary seconds dial and outer minute markers. A later leather strap has been fitted. The watch comes in a new presentation box.
