Description

A stunning antique walnut kidney shaped dressing table and stool. This was made in England, it dates from the 1900-1920 period. The quality is outstanding, this is a large and impressive size. The walnut grain patterns and colour tones are beautiful, this has gorgeous crisp carving throughout. There is lots of storage space, the drawers have high quality brass ring pull handles and fine, hand cut dovetailed joints. The back is nicely finished so this can be used as a free standing item. The kidney shaped stool was made to match and is of equally high quality with a newly upholstered drop in seat. The condition is excellent throughout, we have just had this re-polished to a very high standard. The mirrors and mirror supports detach for ease of transport.
