Description

An unusual Victorian cast iron washstand, the bevelled mirror back surmounted by a putto and flanked by urn topped columns over a foliate cast panel, two small lower shelves and inset with three pottery tiles, the white Carrara marble top over a foliate cast apron, the end supports with putto holding floral garlands and joined by a lower bar stretcher. Bears cast Registration marks for 1899. This would make an excellent bathroom sink. The marble surface lifts off and could be cut to make a sink aperture. The tiles are easily removed from the back and could be replaced to suit a different colour scheme - Delft tiles would be a good option. In good, restored condition, the lower bar stretcher is replacement.
