Antique silver English pocket watch, chain and horse fob

Price

Sold**Item Reference: SA1049994****Date of manufacture: 1900**

Description

Antique silver English pocket watch and chain. The watch has an English Coventry stem-winding movement which is working nicely. The movement is protected by an inner cover. The watch measures 52mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the back covers for London 1907, with a case maker's mark of WB, believed to be the Coventry watch case maker William Bullock. The case is in lovely condition and has beautifully ornate initials to the back, quite tricky to make out but appears to be HC or CH. The glass lens is in good condition, just a couple of small marks, nothing serious at all. The dial is in lovely condition with pin-set blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a silver double albert, hallmarked on the T-bar, clasps and ring for 1904 with a maker's mark for the Liverpoolian silversmith Joseph Sewill. Each chain measures 25cm long. There is also a good quality detailed three dimensional silver horse fob. The watch and chain come in a new presentation box.
