Dimensions

Height = 48 cm (18.9")

Width = 36 cm (14.2")

Description

A good quality adjustable Piano Stool dating from the late 19th Century. The stool stands on four turned legs joined to a central column, each with beautiful cast iron claw feet holding glass balls. It has a slightly dished wooden top which turns on a large screw and the height can be adjusted from approximately 19" (48cm) high to 23" (59cm) high. Below the seat is the maker's name "Thomas Organ Co. Woodstock, Ontario, Canada". It is in good condition for its age. The revolving mechanism runs smoothly with very minimal give side to side and the stool is stable when extended upwards. The wood is free from any major knocks or splits and is overall a sturdy construction. There are of course some signs of age and use but nothing detrimental. It has been cleaned and polished and is ready for use. Approximate Measurements : Top Diameter : 14" (36cm) Width across Feet : 13" (33cm) Minimum Height : 19" (48cm) The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK Delivery £40
