Description

A beautiful pair of early 19th Century Regency Hall Chairs with superbly carved Scalloped backs and turned reeded front legs. The Chairs are a lovely colour and surface, they are in very good solid condition. One back leg has been replaced many years ago and is not really noticeable. These Chairs may well have been made by Gillows of Lancaster as this pattern is documented as being one of their designs. The quality of the craftsmanship and the timbers would suggest certainly that they were made by a leading firm of the period.
