Description

Large Chest of Drawers - Edwardian Walnut - circa 1910 This larger than average chest of drawers are in fine order. The Walnut is a fabulous colour and the quality of the chest is obvious. The choice of Walnut definately elevates the chest over the far more common mahogany examples. The styling is efficient with clean sharp lines and an understated moulded top detail. The whole sits upon a straight sided continuous plinth. The handles are original and fit well with the period. The layout is '2 over 3' with the drawer design graduated as the drawers progressively increase in depth the lower that you look. Top pair = 18cm height Second tier = 20cm height Third tier = 23cm in height Lower tier = 25cm in height The chest is in great order and will perform perfectly and look wonderful for many decades to come.
