Description

This beautiful faceted rock crystal is crisp and clear with incredible sparkle, accentuated by the high crown-style mount which lets light in from every angle. The ring is in excellent vintage condition. Marked "935" - a silver fineness higher than sterling silver (925). We most often see 935 on pieces from Germany, Austria and Switzerland c.1920s-40, which fits with the style of the ring. Size: O (UK), approx 7 (US). The crystal is 7mm diameter and the face of the stone sits around 8mm above the finger. Weight: 2.1g.
