Description

A stunning, fine and impressive, antique early 19th century 18 carat yellow gold muff chain; part of our diverse antique Georgian jewellery collections. This exceptional, fine and impressive antique muff chain has been crafted in 18ct yellow gold. The 47" antique chain consists of twenty-seven finely crafted elongated cuboid links, embellished with impressive engraved decoration. Each feature link articulates via a fancy array of circular links, creating an interlacing design. The chain secures with an impressive and original diminutive hand clasp, ornamented with a 0.01ct round faceted ruby to the ring on the index finger; the addition of the gemstone is a fine feature of the piece and indicates the high quality. By virtue of its length this muff chain in gold may be worn as a one or two strand necklace. This exceptional Georgian gold chain necklace has been independently tested using state of the art technology (Niton XL2 Analyzer) and verified as 18 carat gold. This exceptional chain is the finest of its type you could hope to acquire. NOTE: Muff chains are long chains which were popularised in the 18th century, worn around the neck to secure ladies' muffs.
