Description

A beautiful solid silver and enamel Eastern cigarette case. It is unmarked but tests as high grade silver. I would date it to c1920. It has been beautifully hand made being embossed, chased, and enamelled flowers and birds. It is in superb condition being free from dings splits holes and repairs. The enamel is great. It flips open automatically when the button is pressed as it should. It measures over 4 inches (10.4cms) by 3 inches (8cms) and weighs 151 grams. A superbly designed beautiful example.
