Description

Antique Waltham full hunter pocket watch, 1903. The watch has a seven jewel Traveler grade stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 12,495,833 which dates it back to 1903. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated. It has a few small "dings" to the front and back but not too detrimental. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in lovely condition, some reflection showing in the photo. The signed dial is in beautiful condition. The watch comes in a new presentation box.
