Description

A set of rather up market Balloon Back dining chairs from the reign of Queen Victoria. This set was restored by us a good few years ago and owing to a change in circumstances of the owner they have come available. They are in good condition with seats that look as though they have hardly been used and if needed there is some spare fabric that matches in case of a future accident. The fabric being in a neutral colour it is not going to fight with anything in a room already. The timbers are a good pleasing mellow colour but do have some light fade in the back of a couple of examples owing to the sun. This set of chairs have the polished side rail on the seat and a pleasing turned leg with a more rounded profile than most. Please give us a call if we can help. 01565 874075
