Antique silver Elgin full hunter pocket watch

Price

Sold**Item Reference: SA1055555****Date of manufacture: 1900**

Description

Antique silver Elgin full hunter pocket watch. The watch has a seven jewel grade 207 stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 8894444 dates it back to around 1900. The movement is protected by an inner hinged cover. The watch measures 56mm diameter excluding the winding stem and the loop so larger than a standard 50mm watch. The case is 925 silver (the same purity as sterling silver) and was made by The Dueber Watch Case Company, founded in 1873 in Cincinnati by John C Dueber. The case has detailing to both the front and back including an image of a building to the back. The case is in lovely condition. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition. The signed dial has a couple of chips to the edge and a couple of short hairlines but not too detrimental. Other than that, the dial looks good just some very slight discolouration around the numbers that shows in certain lights. Lever set hands. The watch comes in a new presentation box.
