Description

Gents 1950s Smiths De Luxe wrist watch. The watch has a 17-jewel hand-winding movement, 27 CS, stamped Made in England, which is working nicely. The movement is covered by a retaining ring which has a cut out for the regulator. The watch measures 32mm diameter excluding the winding crown and the lugs. The case is gold plated and the case back is stainless steel. There is a little marking to the plate but overall the condition is good for a 1950s piece. The lens is in lovely condition (some reflection showing in the photos). The signed dial is in its original black gloss finish with original hands and original central seconds sweep with red pointer end. A later leather strap has been fitted. The watch comes in a new presentation box.
