A good late Victorian three
draw telescope

Price

Sold

Item Reference: SA1058584

Date of manufacture: Victorian

Dimensions

Height = 15 cm (5.9")

Width = 3.3 cm (1.3")

Depth = 3.3 cm (1.3")

Description

A good, usable example of a three draw telescope from the late Victorian era. The body of the telescope is of brass, with a leather covered hand grip and unusually retains the original lens cap and eye cover. Focus is easily adjustable and the telescopic nature means it neatly reduces down to fit snug in the pocket. A useful antique item, making for a great addition to a collection. Dimensions below. Postage and packing £8.00 UK £16.00 Europe £26.00 Outside Europe Condition :- Excellent, with no chips or cracks to the glass lenses. The telescope is clean and in good working order. The brass has a small, shallow dint to the middle draw, commensurate with age and use. Origin :- English. Date :- c1880. Length :- 14.5 cms. (closed). 41 cms. (open). Diameter :- 3.3 cms. (widest point).

Internal Ref: APMC77
