Description

- This pretty rare design in rosewood includes well carved rope twist pilasters sitting on super hairy paw feet. The decorate brass mounts are very good quality. The silk moiré covered panels sit behind stylish brass grills and for decorative purposes can be removed or replaced with glass. In 35 years I have only seen 3 other types of cabinets of this design and would speculate that they represent the output of just one fine cabinet maker. • This is well proportioned for modern living – so whilst practical for storage will sit elegantly against a wall without projecting out too far. • The cabinet comes in super restored condition with the rosewood having developed an attractive colour. • A rare find. • Delivery £90 uk ex. Scotland
