Description

Antique Waltham wrist watch, 1913. The watch has a 15-jewel hand-winding movement which is working nicely. The movement is the grade 165 with a Church 1892 patent regulator. It is fully signed and it has the serial number 18,927,285 which dates it back to 1913. The watch measures 32.5mm diameter excluding the winding crown and fixed wire lugs. The case is the gold filled Moon model from the Dennison Watch Case Company, a Birmingham based case manufacturer and supplier to Waltham UK. There is a small mark to the bezel but other than that, the case is in lovely condition. The lens has a small mark, less than 1mm round, but is in good condition. The signed dial is in nice condition with blued steel hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
