Description

Great size, only 30" wide, Georgian style 4 drawer chest of drawers. I am pretty sure this has been re-constructed in Edwardian times from a larger period chest of drawers and as such is all made of period timbers. Four long drawers which are all cock beaded with original Georgian brass locks (with working key) and original Edwardian brass swan neck handles. The drawers are all of dovetailed construction and are ash lined. The chest stands on shaped bracket feet. All the front edges are cross banded. The top has a nice Georgian moulding around the edge and is cross banded on the top. Although not 100% right as a Georgian piece this is still an antique of very good quality and the size is really good. It would make a great bedside chest. SIZE; 30" wide by 16" deep by 29 1/2" high CIRCA; Georgian and later
