Description

Antique 19th Century Burmese Carved Side Table * Myanmar (Formerly Burma) 19th Century * Superb quality and magnificently carved * Tour de force of the carver's art * Combines functionality with artistry * Featuring foliate designs and a mythical creature's head (either a dragon or serpent) * Will display equally well in either a period or contemporary setting *H: 66cm (26") Di: 51cm (20.1") This magnificent antique 19th Century Burmese occasional table is of generous proportions and makes a real statement; it will certainly attract attention wherever it is placed. The solid wood top has a central circular section with a decorative and delicate filigree-carved and pierced 'skirt' with foliate designs. The abundance of high and low relief carvings continue on the central pedestal and tripod legs feature foliate designs and terminate in a mythical creature's head (either a dragon or serpent). This exquisite table combines functionality with artistry, making it a captivating addition to any space and is a real feast for the eyes adding visual intrigue to any décor; it is almost impossible to decide where to look first. A true tour de force of the carver's art which ...
