Description

Gents 9ct gold Smiths Astral wrist watch, 1966. The watch has a 15-jewel hand-winding movement, stamped Made in England, which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for London 1966, with a maker's mark of ECW contained within a crown shape. Usually we would expect to see SCW within a crown shape for Smiths Clocks and Watches so this is a little more unusual. We believe the E relates to the Smiths Enfield factory which was opened in 1949. The case is in good condition, just a little marking around the edge of the case back. The back of the watch has a long service inscription from British Rail. The signed dial is in its original finish with original hands. A new leather strap has been fitted. The watch comes in a new presentation box.
