Dimensions

Height = 22 cm (8.7")

Width = 13 cm (5.1")

Depth = 11.5 cm (4.5")

Description

Hi I have for sale a very rare small 1870s French crystal regulator mantel clock that is in stunning condition for the age with the porcelain panels on all sides in pink it is a really nice little regulator clock. This clock is simply stunning the case shines in the sun light and has the most stunning enamel inset panels all around a very unusual case style. The Case The case is in solid very shiny brass and standing 22cm high x 13cm wide with a depth of 11.5cm it is in very good original condition very shiny and has been very well looked after over the years. All panels and doors again are in original condition. The Dial The dial is in original condition it is gilded within the enamel inset panel set off with black Roman numerals and with the original spade hands. The Movement The movement is an eight day time and strike striking the hours and halves on a large sweet bell a real quality movement, which still retains the original key and matching brass and pendulum. The movement keeps good time over the eight days; just been serviced and running very strong) Please do not miss this one you might not see a clock like this, again you could wait a very long time to s...

Internal Ref: Cive pink panels
