Dimensions

Height = 16 cm (6.3")

Width = 8.5 cm (3.3")

Depth = 8 cm (3.1")

Description

Hi I have for sale a French striking and repeating carriage clock made in France around 1870;s by Drocourt which has just been fully restored both the case and the movement and original silvered platform . The movement has had new springs, the original platform fully restored and the back plate is stamped by the retailer Capitan Henry. This is one nice and heavy clock built to top spec and a must for the best of collections , with the entire clock with the same matching numbers which again is on the base of the escapement. The Case The case is in solid shiny gilt brass and stands 16cm to the top of the handle high x 8.5cm wide with a depth of 8cm it is in perfect condition with mint thick 3mm bevelled sides/front/ and top viewing glass. The case is very shiny and hard to photograph they do not do the clock justice at all this is the gorge case style. The Dial The dial is in original condition white porcelain housed in a gilt picture frame looks stunning in the flesh, the clock has very fine original black spade hands. The Movement The movement is an eight day time and strike which strikes the hours via a small sweet gong to the rear and also has the repeater button on ...
