Height = 16 cm (6.3")

Width = 9 cm (3.5")

Depth = 8 cm (3.1")

Description

Hi I have for sale a French striking carriage clock made in France around 1870;s by AD which has just been fully restored both the case , the movement and original silvered platform . The movement has had new springs, the original platform fully restored. This is one but heavy clock built to top spec and a must for the best of collections a very rare case not often seen for sale, with the entire clock with the same matching numbers which again is on the base of the escapement. The Case The case is in solid shiny gilt brass and stands 16cm to the top of the handle high x 9cm wide with a depth of 8cm it is in perfect condition with mint thick 3mm bevelled sides/front/ and top viewing glass. The case is very shiny and hard to photograph they do not do the clock justice at all. The Dial The dial is in original condition white porcelain, the clock has very fine original black spade hands with the London Retailers name at the bottom. The Movement The movement is an eight day time and strike which strikes the hours via a small sweet gong to the rear , the movement has been fully ultra sonic cleaned new springs added I also blued all the screws and gong in the same blue colour ...
