Width = 9 cm (3.5")

Depth = 2 cm (0.8")

Description

Circa 1900 a fabulous large steel and brass padlock made by The Walsall Lock and Cart company for the LM & SR railway company. We believe this is the London, Midlands and Scottish railway service from the early 1900's. It is in good condition and the mechanism works well. The thickness can be seen clearly in photo 3 and it weighs about 528grams or half a kilo. The padlock measures 11.5cm in length without the chain, it is approximately 8.5cm wide and 2.25cm thick. Postage and packing for the UK mainland is included in the price and for outside areas or delivery abroad please contact us for a quote.

Internal Ref: 1672
