Description

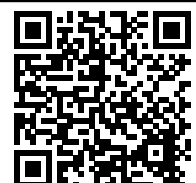

A fantastic Art Deco walnut, rosewood and leather desk chair / stool. This was likely made in France, it dates from the 1920-30's. It is of outstanding quality and has an amazing design, the lower front section is made from walnut, the back rest is rosewood. It has an interesting and stylish ribbed cushioned back rest and is well padded on the seat as well. This would be useful as a desk chair, dressing table stool or as an occasional side table. We have had this stripped and re-polished to a very high standard, and we have had it re-upholstered in cream leather. The condition is excellent throughout.
