Description

Gents 1960s Elco Bimatic wrist watch. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 31mm diameter excluding the winding crown and the lugs... originally designed as a man's watch, it would suit a slimmer wrist. The case is gold plated and it is in good condition. The case back is stainless steel. The lens is in good condition. The dial is signed Elco Bimatic... Elco was established by Erwin Leutz (Erwin Leutz & Co hence the name Elco) of Stuttgart, he traded in watches rather than actually manufacturing them. There is some light marking to the dial but not too noticeable to the naked eye. Original hands. A new leather strap has been fitted. The watch comes in a new presentation box.
