Description

A superb example of an original opaline glass ceiling light dating from the early to mid 20th Century. It is an attractive shape and has its original patinated metal gallery. It has been cleaned and rewired to modern standards with a braided cable and a standard bayonet bulb holder. The light is in good condition with no damages apart from a few small nibbles around the rim. The gallery has been lightly cleaned to retain its patinated finish. It is ready to install but we always recommend that the light is checked and wired by a professional electrician. Approximate Measurements: Height (including gallery) : 10" / 26cm Width : 10" / 26cm The best description comes from the photos so please look at them all carefully and if you have any questions just ask.
