Description

Miniature antique Waltham pocket watch, 1914. The watch has a stem-winding movement, grade 100, seven jewels, which is working nicely. The movement is fully signed and it has the serial number 19,522,398 which dates it back to 1914. The movement is protected by an inner hinged cover which has some surface marking. The watch measures 36mm diameter excluding the stem and the loop. The case is the gold plated Star model made by the Dennison Watch Case Company, an English watch maker who supplied most of the cases for Waltham UK. The case has light surface marking but overall it is in nice condition. The acrylic lens is in nice condition, as is the white enamel dial which has its original gold hands and a blued steel sub seconds hand. The watch comes in a new presentation box.
