Height = 7.1 cm (2.8")

Width = 7.1 cm (2.8")

Depth = 7.1 cm (2.8")

Description

Here's one for the collector of early lighting...a very unusual type of 18thc brass chamberstick, made out spun brass with wide drip tray , which has incised ring decoration....a shaped side ejector....but of a size I have not seen before...only 2.75ins (7.00cms) high.....it was probably a small chamberstick, which you would take with you on your travels.....it is in very good condition , with an attractive natural colour, from years of careful use. English. C1770-90.

Internal Ref: MS 7993
