Description

1920s pocket watch and chain. The watch has a Swiss seven jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has a few short scratches. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel plated and it is in good condition, just some rubbing on the bezel. The glass lens is in lovely condition. The dial has blued steel hands, a subsidiary seconds dial and outer minute markers. There is a hairline running diagonally across the dial but it is very faint and quite difficult to see with the naked eye. The watch comes with a single chain, 23.5cm long including the T-bar and the clasp. There is also an Art Deco football fob, free of any inscription. The watch and chain come in a new presentation box.
