Description

1930s Record pocket watch. The watch has a good quality movement, 15 jewels, 2 adjustments, which is working well. The movement is signed with the Record name, and it is all protected by an inner dust cover which has some unevenness. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the English case maker Aaron Dennison. The case is in good condition with just fairly gentle unevenness to the back. The back of the watch has engine turned detail which is still nice and crisp, and there is a vacant cartouche to the centre. The glass lens is in nice condition with just very minor marking. The signed dial is in nice condition with original blued steel hands. The watch comes in a new presentation box.
