Sold

Item Reference: SA1069066

Date of manufacture: Victorian

Dimensions

Height = 30 cm (11.8")

Width = 48.5 cm (19.1")

Description

Good example of an antique riveted copper boiler dating from the late 19th Century. Most likely originally used as an industrial boiler or measure, it is the perfect size for a log bin or planter. Excellent quality with a riveted seam and riveted detail around the bottom. It is in good original condition and displays well. There has been a patch repair on the front and some old splits around the edge of the rim but no other damages, splits or holes. There are some minor dinks and dents but nothing detrimental and it has a lovely patina. It has been lightly cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers. Please get in touch for an accurate quote to your location.
