Item Reference: SA1069101

Date of manufacture: 1910

Dimensions

Height = 83 cm (32.7")

Width = 69 cm (27.2")

Description

An outstanding rare pair of hand carved classic Black Forest picture or mirror frames. These distinctive pieces are masterfully and traditionally sculpted out of limewood resembling, in an extraordinary way, the appearance of tree branches which are finished in the traditional dark brown colour. They can be completed with a mirror or used, other than for a painting, to display a collection of small objects, from miniatures to watches which would look fabulous hung on a panel covered in yellow/gold silky fabric. Presenting these frames "empty" facilitate their shipping but we are obviously available in case you would like us to have a mirror fitted in them. External max dimensions (max) 69 x 83 h. Internal dimensions: 50 x 65.5 h
