Description

This is a remarkable near mint example the very rare Solid 18ct rose gold Longines calibre 19.4 from around 1962 with original box. The only work we have carried out is to service the movement and give the case a light polish. The solid 18ct rose gold case is at 34mm in diameter excluding the original crown, a full size gents. The case edges are sharp and crisp the watch looks like it was rarely worn. The movement is Longines manual winding calibre 19.4 this was one of Longines highest grade movements of this period. It has been freshly serviced and is currently running at plus 5 seconds per day and the power reserve is 42 hours not bad for a 60 year old watch. The dial is totally original and near perfect it has had no restoration whatsoever. It has a very very fine and even surface patina just as you would expect from a dial of this age. The hands are matching rose gold. It's the most original and perfect unrestored example you will ever see. As you would expect the watch is fully marked on the dial, movement, case and Box. A very rare quality collectors piece. We offer a highly personalised and bespoke service. If you would like to buy or reserve this watch pl...
