Description

A beautiful solid silver Indian box. It is unmarked but tests as high grade silver. I would date it to c1890 almost certainly made in Kutch. It has been beautifully hand made being embossed and chased with scrolls and flowers. It is in superb condition being free from dings splits holes and repairs. It measures approx. 2 inches (5cm) long by 1.25 inches (3.3cm) wide by 0.75 inch (1.9cm) tall and weighs 32 grams. A superbly designed beautiful example.
