Description

Antique silver Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed with the early Omega logo, and it has the serial number 3329285 underneath the dial, this dates it back to around 1908. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and is hallmarked inside both of the case backs for London (import mark), 1911 together with the early Omega logo. The case is in good condition, just a couple of small pin pricked "dings" to the back. The acrylic lens is in good condition. The dial has three hairline cracks but they are quite faint. The watch comes with a single chain, 35cm long including the T-bar and the clasp. Hallmarked on the T-bar and the clasp for 1897. Each of the links has the lion silver mark. There is also a silver fob with rose gold with an inscription on the reverse, dated 1937. The chain weighs 32g. The watch and chain will come in a new presentation box.
