Description

A good quality oak coal bin dating from circa 1900. It is decorated with pierced brass corner pieces and it has a small brass handle. The front pulls down to reveal the coal storage area. It would have once had a liner which is now missing but is perfectly usable as it is. It is in good condition for its age and the oak has a nice rich colour. There are some signs of age and use, some minor marks and knocks but nothing untoward or detrimental. It has been cleaned and gently polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
